ALLELUIA!

April 13, 2021

Dear STS Family,

Welcome Back!

There is something special about Easter and the Easter season, that we rarely celebrate with our children: it is the joy, the excitement, the New Life that Jesus shares with us at Easter. The reason we “rarely” celebrate this is that we are in school for Holy Week (an entirely different time and emphasis) and have a week off after Easter... (although the Easter season “technically” continues for forty days after Easter Sunday). Then we come back to school, and life continues as it was!

This year, at St. Theresa School, we WILL celebrate Easter with our children! On Friday, April 16, we will be having a Celebration of Easter New Life at STS. This will include expressions of new life in God’s creation, renewal of our Baptismal Promises of new life, and a short video presentation. The classes will have assigned times and will move between “Stations” of Easter joy and new life. It will be an experience that, hopefully, will allow the children to become part of the ongoing celebration of Easter through child-friendly presentations.

We hope your children will enjoy this experience and, about 45 minutes from start to finish, and that it will help them better understand the Resurrection of Jesus and the Gift of New Life that is so much a part of Easter! We also ask your support for this event, as – *and you know this better than I do* – everything has a price. Any monetary donation that you might be able to share would be greatly appreciated. Please visit our website (www.mysts.org) and click on the button to help us with this event. Thank you.

Happy Easter!
